Highline Electric

Matt Brown
High Plains Power

Tri-State's Board of Directors is made up of one representative from each of the association's 44 member distribution systems. Each director is appointed by his or her local co-op to a one-year term on the Tri-State board, which usually runs from April to April (coinciding with the G&T's annual meeting).

The Tri-State board, which meets on a monthly basis, also is divided into four committees—the Executive Committee (consisting of the six officers of the board along with three at-large positions), the Engineering and Operations Committee, the Finance Committee and the External Affairs/Member Relations Committee.

Board of Directors
